always there for you to lean on, friends will support each other for all ups and downs in life. Friends are who fill our lives with meanings.

I recommend this book because.....

The story is very easy to understand with simple words and tons of colourful collage illustrations. It is a great reminder to readers of all ages that friends are like shapes. Our friends are all different in appearances, characters, capabilities, languages and so on. From time to time, we may have arguments and run into tough situations where we do not share the same view. These differences should not stop us from being together because friends are who we care and love. We love this book and highly recommend it to everyone.
