

Book Title: The Things I Love About FRIENDS

Author: Trace Moroney

Publisher: The Five Mile Press

Story Content:

This book is about how the little rabbit loves friends. The little rabbit describes the things he loves about his friends, e.g. the fun activities that he likes to do with them, and how he shares his thoughts and feelings with them. It also illustrates one does not need to like the same things to be friends, as sometimes it is the differences between friends that makes friends like each other. It also suggests that, to have a good friend, you have to be a good friend and how one can be a good friend.

Book Recommendation

May 2025

I recommend this book because:

This is a nice book with very lovely and colourful pictures which children would love. The ideas from the book are easy to be understood by children of this age. The story brings up different aspects about 'Friends' to illustrate what friendship is. The concept is very positive and it encourages love, care, optimism, and to learn to be a good friend to others. At the end of the story there is a note for parents that provides some helpful insights on creating positive psychology and how to foster good peer relationships. I recommend parents to read this book to children. I am sure your children will enjoy it. There are also other books from this series which are also highly recommended.
